Have you ever wished for...

Individual BodyTalk mentoring?

The guidance of a Senior Instructor as you work?

Time to ask all of your questions about practicing BodyTalk?

The ability to witness an intake session and ask questions?

The opportunity to discuss challenging cases or situations?

If the answer to any of these questions is “yes”, come and join us at the first BodyTalk Advanced Skill Building Intensive taught by Dr. Janet Galipo, Sr. CBI in Boulder from April 16-18, 2010.

This Advanced Skill Building Intensive is designed to help you refine and master your existing BodyTalk skill set, rather than teaching new material. There will be lots of time for supervised practice, and to ask all of your questions. Dr. Galipo will demonstrate full intake and treatment sessions on real clients, with discussion time afterwards. There will be opportunities to discuss case histories, or bring up challenging cases (anonymously) for review and discussion.

The pre-requisites for this course are Modules 1 & 2, plus one or more advanced modules 3 – 9. Please note that this is not an official IBA course, and is not available for IBA continuing education credit.
